

CALL FOR PAPERS

13th International Conference on Micro- and Nanosystems (MNS)

Symposium: MNS-9 Flexible MEMS/NEMS

To be held in conjunction with the
ASME 2019 International Design Engineering
Technical Conferences
Anaheim, California, USA

August 18-21, 2019

Symposium Organizers

Prof. Xian Zhang
Stevens Institute of Technology
Email: xian.zhang@stevens.edu

Prof. Kamran Shavezipur
Southern Illinois University
Email: mshavez@siue.edu

Conference Description

This conference, sponsored by the Technical Committee on Micro- and Nanosystems (MNS), an integral part of the ASME Design Engineering Division, will provide researchers in industry, academia, and government a forum to exchange scientific and technical information related to recent developments and emerging issues in the design, mechanics, dynamics, control, and manufacturing of micro- and nanoscale systems. Manuscripts are solicited from experimental, computational, and theoretical studies. Submissions from researchers both within and outside of the traditional mechanical engineering community are strongly encouraged.

Abstracts and Papers Submission

Draft paper (publication and presentation) submissions are due by **Feb. 25, 2019**. The full-length papers will be reviewed and accepted manuscripts will be published in the conference proceedings. We also accept presentation-only abstracts (2-page) that are not published in the proceedings. This has been particularly attractive to those who wanted to present early results of their research. All full-length papers will automatically be considered for the Best Paper Award competitions.

Please send abstracts and papers to xian.zhang@stevens.edu or mshavez@siue.edu

Important Dates

Feb. 25, 2019 Submission of draft papers and extended abstract

April 1, 2019 Draft paper review completed

April 8, 2019 Notification of Acceptance/Revision/ Rejection & Copyright Form opens

April 22, 2019, Submission of revised paper

May 6, 2019, Notification of Acceptance/Rejection of revised papers

May 24, 2019 Copyright Completed

May 27, 2019 Submission of Final Paper

The full publication schedule and conference info is available at:
